Notes Bankwell Financial Group President and CEO, Christopher R. Gruseke:
"We are proud to announce record performance for the fourth quarter and full year of 2021. In addition to generating a Return on Average Equity of $14 \%$ for the year, the Company made significant strides in all aspects of its business. While originating approximately $\$ 800$ million in loans, we also continued to diversify our asset base. Core deposits grew by $31.7 \%$, year over year, and non-interest bearing deposits increased by $47.6 \%$ over the same period.
"I offer my heartfelt gratitude and sincere congratulations to every member of our team. Their hard work and commitment, during a time of historic disruption, has made these impressive achievements possible.
"We enter the year ahead with confidence and momentum and look forward to another outstanding year. Loan and deposit pipelines remain strong. Inclusive of four expected rate hikes by the Federal Reserve, we expect net interest income to grow by $12-14 \%$ in 2022 ."

## Earnings and Performance

Revenues (net interest income plus noninterest income) for the quarter ended December 31, 2021 were $\$ 19.8$ million, versus $\$ 14.9$ million for the quarter ended December 31, 2020. Revenues for the year ended December 31, 2021 were $\$ 73.5$ million, versus $\$ 57.7$ million for the year ended December 31, 2020. The increase was primarily attributable to lower interest expense on deposits, an increase in interest and fees on loans due to loan growth and from the resumption of loan sales.

Net income for the quarter ended December 31, 2021 was $\$ 7.8$ million, versus $\$ 0.3$ million for the quarter ended December 31, 2020. Net income for the year ended December 31, 2021 was $\$ 26.6$ million, versus $\$ 5.9$ million for the year ended December 31, 2020. The increase in net income was primarily impacted by the aforementioned increases in revenues, a decrease in noninterest expense, and a decrease in the provision for loan losses resulting from lower loan loss reserves in 2021 when compared to 2020, which saw a large increase in reserves due to the COVID-19 Pandemic.

Basic and diluted earnings per share were $\$ 1.00$ and $\$ 0.99$, respectively, for the quarter ended December 31, 2021 compared to basic and diluted earnings per share of $\$ 0.04$ each for the quarter ended December 31, 2020. Basic and diluted earnings per share were $\$ 3.38$ and $\$ 3.36$, respectively, for the year ended December 31, 2021 compared to basic and diluted earnings per share of $\$ 0.75$ each for the year ended December 31, 2020.

The net interest margin (fully taxable equivalent basis) for the quarters ended December 31, 2021 and December 31, 2020 was $3.43 \%$ and $2.66 \%$, respectively. The net interest margin (fully taxable equivalent basis) for the years ended December 31, 2021 and December 31, 2020 was $3.17 \%$ and $2.77 \%$, respectively. The increase in the net interest margin was due to lower interest expense from a decrease in rates on interest bearing deposits and a greater proportion of noninterest bearing deposits.

## Financial Condition

Assets totaled $\$ 2.46$ billion at December 31, 2021, compared to assets of $\$ 2.25$ billion at December 31, 2020. The increase in assets was primarily due to loan growth, partially offset by a decrease in excess liquidity. Gross loans totaled $\$ 1.9$ billion at December 31, 2021, an increase of $\$ 269.3$ million compared to December 31, 2020. Excluding PPP loans, gross loans increased by $\$ 303.9$ million at December 31, 2021 when compared to December 31, 2020. Deposits totaled $\$ 2.1$ billion at December 31, 2021, compared to deposits of $\$ 1.8$ billion at December 31, 2020.

## Capital

Shareholders' equity totaled $\$ 202.0$ million as of December 31, 2021, an increase of $\$ 25.4$ million compared to December 31, 2020, primarily a result of (i) net income of $\$ 26.6$ million for the year ended December 31, 2021 and (ii) a $\$ 7.0$ million favorable impact to accumulated other comprehensive income driven by fair value marks related to hedge positions involving interest rate swaps. The Company's interest rate swaps are used to hedge interest rate risk. The Company's current interest rate swap positions will cause a decrease to other comprehensive income in a falling interest rate environment and an increase in a rising interest rate environment. The increase in Shareholders' equity was partially offset by dividends paid of $\$ 5.0$ million and common stock repurchases of $\$ 5.1$ million.

This press release may contain certain forward-looking statements about the Company. Forward-looking statements include statements regarding anticipated future events and can be identified by the fact that they do not relate strictly to historical or current facts. They often include words such as "believe," "expect," "anticipate," "estimate," and "intend" or future or conditional verbs such as "will," "would," "should," "could," or "may." Forward-looking statements, by their nature, are subject to risks and uncertainties. Certain factors that could cause actual results to differ materially from expected results include, but are not limited to, increased competitive pressures, changes in the interest rate environment, general economic conditions or conditions within the securities markets, uncertain impacts of, or additional changes in, monetary, fiscal or tax policy to address the impact of COVID-19, prolonged measures to contain the spread of COVID-19 or premature easing of such containment measures, either of which could further exacerbate the effects on the Company's business and results of operations, and legislative and regulatory changes that could adversely affect the business in which the Company and its subsidiaries are engaged.

## Non-GAAP Financial Measures

In addition to evaluating the Company's financial performance in accordance with U.S. generally accepted accounting principles ("GAAP"), management may evaluate certain non-GAAP financial measures, such as the efficiency ratio. A computation and reconciliation of certain non-GAAP financial measures used for these purposes is contained in the accompanying Reconciliation of GAAP to Non-GAAP Measures tables. We believe that providing certain non-GAAP financial measures provides investors with information useful in understanding our financial performance, our performance trends and financial position. For example, the Company believes that the efficiency ratio is useful in the assessment of financial performance, including noninterest expense control. The Company believes that tangible common equity, tangible book value per share, and return on average tangible common equity are useful to evaluate the relative strength of the Company's performance and capital position. We utilize these measures for internal planning and forecasting purposes. These non-GAAP financial measures should not be considered a substitute for GAAP basis measures and results, and we strongly encourage investors to review our consolidated financial statements in their entirety and not to rely on any single financial measure.

(1) 2020 performance ratios were negatively impacted by COVID-19 pandemic related loan loss reserves and $\$ 3.9$ million in one-time charges related to office consolidation, contract termination and employee severance costs recognized in the fourth quarter of 2020.
(2) Efficiency ratio is defined as noninterest expense, less other real estate owned expenses and amortization of intangible assets, divided by our operating revenue, which is equal to net interest income plus noninterest income excluding gains and losses on sales of securities and gains and losses on other real estate owned. In our judgment, the adjustments made to operating revenue allow investors and analysts to better assess our operating expenses in relation to our core operating revenue by removing the volatility that is associated with certain one-time items and other discrete items that are unrelated to our core business.
(3) The dividend payout ratio is calculated by dividing dividends per share by earnings per share.

Average full time equivalent employees totaled 126 for the year ended December 31, 2021 compared to 146 for the same period in 2020. In addition, salaries and employee benefits expense also benefited by one-time deferrals of $\$ 0.9$ million for the year ended December 31, 2021 related to costs associated with the implementation of a new online banking and other systems. Salaries and employee benefits were also favorably impacted as higher loan originations enabled the Bank to defer a greater amount of expenses.

Occupancy and equipment expense totaled $\$ 2.4$ million for the quarter ended December 31, 2021, a decrease of $\$ 2.1$ million when compared to the same period in 2020. The decrease in occupancy and equipment expense was primarily due to costs associated with office and branch consolidation, recognized during the fourth quarter of 2020.

Data processing expense totaled $\$ 0.4$ million for the quarter ended December 31, 2021, a decrease of $\$ 1.2$ million when compared to the same period in 2020. Data processing expense totaled $\$ 2.4$ million for the year ended December 31, 2021, a decrease of $\$ 0.8$ million when compared to the same period in 2020.
