## Earnings

Revenues (net interest income plus noninterest income) for the quarter ended March 31, 2019 were $\$ 15.6$ million, an increase of $4 \%$ compared to the quarter ended March 31, 2018. Net interest income for the quarter ended March 31, 2019 was $\$ 14.3$ million, an increase of $4 \%$ compared to the quarter ended March 31, 2018. Net income for the quarter ended March 31, 2019 was $\$ 5.1$ million, an increase of $10 \%$ compared to the quarter ended March 31, 2018. The increase in revenues, net interest income and net income was aided by income recognized from fees as a result of elevated loan prepayments. Specifically, the Company recognized just under $\$ 1.0$ million in fees as a result of an early pay-off from one lending relationship.

Basic and diluted earnings per share were each $\$ 0.65$ for the quarter ended March 31, 2019 compared to $\$ 0.59$ for the quarter ended March 31, 2018.

The Company's efficiency ratios for the quarters ended March 31, 2019 and March 31, 2018 were $57.5 \%$ and $62.0 \%$, respectively. The decrease in the efficiency ratio was driven by the aforementioned increase in revenues and a decrease in noninterest expense from continued disciplined expense management.

## Noninterest Income and Expense

Noninterest income remained flat, totaling $\$ 1.3$ million for the quarter ended March 31, 2019 and March 31, 2018. Other noninterest income increased $\$ 0.5$ million primarily resulting from income recognized from an interest rate swap fee recognized in the first quarter of 2019. This increase was offset by a decrease of $\$ 0.3$ million in gains and fees from sales of loans and a decrease of $\$ 0.2$ million in gains on the sales of securities as compared to the quarter ended March 31, 2018.

Noninterest expense decreased $\$ 0.2$ million or $2 \%$ for the quarter ended March 31, 2019 compared to the quarter ended March 31, 2018. The decrease was primarily driven by a decrease in salaries and employee benefits and professional services. Salaries and employee benefits totaled $\$ 4.8$ million for the quarter ended March 31, 2019 compared to $\$ 5.0$ million for the same period in 2018, a decrease of $\$ 0.2$ million. The decrease in salaries and employee benefits was primarily driven by a slight reduction in full time equivalent employees and an increase in deferred loan origination costs as a result of higher loan volume as compared to the quarter ended March 31, 2018. Full time equivalent employees totaled 140 at March 31, 2019 compared to 144 at March 31, 2018. Professional services totaled $\$ 0.6$ million for the quarter ended March 31, 2019 compared to $\$ 0.8$ million for the same period in 2018, a decrease of $\$ 0.2$ million. The decrease in professional services was primarily driven by a decline in audit related fees. Noninterest expense was negatively impacted by $\$ 0.3$ million as a result of increased occupancy and equipment cost related to prior year's branch expansion and overall investment in technology.

## Financial Condition

Assets totaled $\$ 1.90$ billion at March 31, 2019, an annualized increase of 5\% compared to assets of $\$ 1.87$ billion at December 31, 2018. Total gross loans were $\$ 1.6$ billion at March 31, 2019 and December 31, 2018, with loan originations being offset by elevated loan pre-payments during the first quarter of 2019. Deposits increased to $\$ 1.52$ billion compared to $\$ 1.50$ billion at December 31, 2018, an annualized increase of $5 \%$ over December 31, 2018.

## Asset Quality

Nonperforming assets as a percentage of total assets was $0.70 \%$ at March 31,2019 , down from $0.75 \%$ at December 31, 2018. Net charge-offs to average loans decreased to $0.01 \%$ for the quarter ended March 31, 2019 compared to $0.41 \%$ for the quarter ended December 31,2018. The allowance for loan losses at March 31, 2019 was $\$ 15.4$ million, representing $0.97 \%$ of total loans. The Company continues to work on the resolution of its previously disclosed large nonperforming lending relationship and progress to date has been in line with the Company's estimates.

## Capital

Shareholders' equity totaled $\$ 176.8$ million as of March 31,2019 , an increase of $\$ 2.6$ million compared to December 31, 2018, primarily a result of net income for the quarter ended March 31, 2019 of $\$ 5.1$ million, offset by dividends paid of $\$ 1.0$ million and a $\$ 2.1$ million impact to accumulated other comprehensive income driven by fair value marks related to hedge positions involving interest rate swaps. As of March 31, 2019, the tangible common equity ratio and tangible book value per share were $9.18 \%$ and $\$ 22.38$, respectively.

## Non-GAAP Financial Measures

In addition to evaluating the Company's financial performance in accordance with U.S. generally accepted accounting principles ("GAAP"), management may evaluate certain non-GAAP financial measures, such as the efficiency ratio. A computation and reconciliation of certain non-GAAP financial measures used for these purposes is contained in the accompanying Reconciliation of GAAP to Non-GAAP Measures tables. We believe that providing certain non-GAAP financial measures provides investors with information useful in understanding our financial performance, our performance trends and financial position. For example, the Company believes that the efficiency ratio is useful in the assessment offinancial performance, including noninterest expense control. The Company believes that tangible common equity and tangible book value per share is useful to evaluate the relative strength of the Company's capital position. We utilize these measures for internal planning and forecasting purposes. These non-GAAP financial measures should not be considered a substitute for GAAP basis measures and results, and we strongly encourage investors to review our consolidated financial statements in their entirety and not to rely on any single financial measure.

(1) Efficiency ratio is defined as noninterest expense, less other real estate owned expenses and amortization of intangible assets, divided by our operating revenue, which is equal to net interest income plus noninterest income excluding gains and losses on sales of securities and gains and losses on other real estate owned. In our judgment, the adjustments made to operating revenue allow investors and analysts to better assess our operating expenses in relation to our core operating revenue by removing the volatility that is associated with certain one-time items and other discrete items that are unrelated to our core business.
(2) Represents Bank ratios. Current period capital ratios are preliminary subject to finalization of the FDIC Call Report.
(3) Excludes unvested restricted shares of $99,061,77,624$, and 114,336 as of March 31, 2019, December 31, 2018, and March 31, 2018, respectively.
