

Take a tour of our App for iPhone® or iPod®

Now you can manage your finances, right on your iPhone or iPod Touch. Our free app gives you instant, secure access whenever and wherever you need it.

Just log in with the same password you use for your online account. The first time you log in, you may be prompted to get an access code as part of our process to help keep your information secure. Once you're logged in, choose any action you'd like to take from the homepage. Simply tap the house symbol to come back to this page anytime. Tap "View Accounts" to instantly see your available balances at a glance. Select any account to see transaction details and simply scroll to view up to 180 days of your transaction history. You can transfer funds right on your account history Page 2 or tap "Transfer Money" on the homepage. From there just select the accounts you'd like to transfer money to and from. Then type the amount and tap "Transfer". You'll get a confirmation screen to make sure the right amount gets to the right account.

Go to the "Pay Bills" tab to see any payments that you've scheduled or pay a bill with just a few taps. Just select any payee you set up in your online account, and then choose the account, amount, and date. And you can even deposit a check without going to a branch or an ATM. Tap the "Deposit Checks" button, choose an account and enter the amount of the check. Next, snap a photo of each side of the check, tap "Deposit Check" and you're done. You can also save money with cash-back offers while you're out shopping. Activate new offers when and where you need them and even get directions to the nearest store to redeem your offers right away.

It's easy to find our nearest branch or ATM too. Just search by city or ZIP code to get an address pin pointed on a map, or even get step by step directions.

To get all of these convenient features just download our free¹ app on the App StoreSM and enjoy the freedom to manage your money securely with just a few taps anytime, anywhere.
